

SAFe® - SAFe® 4.5 for Teams

Kort om undervisningen

This two-day course teaches members of Agile Release Trains how to work in a SAFe environment using Scrum, Kanban, and XP. Participants will experience being Agile teams, learn to write stories and break features, as well as how to plan and execute iterations. Participants will also learn about Agile Release Train and their role in it, planning program increments, integrating with other teams in the program and improving as a train.

Attending the class prepares participants to take the exam and become a certified **SAFe® Practitioner**.

Indhold

- Introducing the Scaled Agile Framework® (SAFe®)
- Being an Agile Team
- Building the backlog
- Planning a Program Increment
- Executing Iterations
- SAFe® Certification
- SAFe® Practitioner (SP) certification

Forudsætninger
